

2010 Camp YoliJwa Sunday Children's Chat

Materials: Candle, clear glass bowl that is big enough to cover the candle

Scripture: 2 Timothy 1:6-7

Lesson:

- Light the candle when the children come up front
- Ask the children questions about what fire needs to burn
- After responses, place the bowl over the lit candle (the candle should extinguish)
- Ask the children why the candle went out?
- If you do not get the correct answer, tell them because fire needs oxygen to burn
- Just as fire needs oxygen to burn, Christians need Jesus to live
- Like the bowl, if we shut Jesus out of our life, our light will go out and we will not be able to spread the light of Jesus
